**Q13. There are 24 boats at the lake, and each boat can hold 6 people. How many people can go on the boat ride at once?**

**Q14. If each student is given 12 biscuits and there are 148 students, how many biscuits are needed?**

**Q15. The group plans to return by 6:00 PM and the journey takes 4 hours. What time should they leave Bhopal?**

## SUBJECT – EVS

### Q1. Fill in the Blanks

1. A group of organs working together is known as an \_\_\_\_\_.
2. The \_\_\_\_\_ system controls all actions in the human body.
3. The digestive system consists of the \_\_\_\_\_, \_\_\_\_\_, and \_\_\_\_\_.
4. The \_\_\_\_\_ system helps in breathing.
5. The \_\_\_\_\_ system is responsible for removing waste material from the body.

### Q2. Match the following systems with their functions:

- |                       |  |
|-----------------------|--|
| 1. Nervous System     | Helps in breathing                     |
| 2. Digestive System   | Controls all actions in the human body |
| 3. Respiratory System | Responsible for digestion of food      |
| 4. Circulatory System | Transports blood throughout the body   |

### Q3. True/ false

1. The digestive system helps in breathing. (True/False)
2. The nervous system controls all actions in the human body. (True/False)

### Q4. Read the following case-based passage and answer the following questions.

Ria, a 10-year-old girl, loved playing outside with her friends. One day, while playing tag, she fell and scraped her knee. Her skin, which is the largest external organ, protected her internal organs from damage. Ria's eyes, which are part of the sensory organs, helped her see the world around her. Her ears, which are also sensory organs, helped her hear her friends calling out to her. Ria's nose and tongue, which are part of the sensory organs, helped her smell and taste the delicious ice cream she had later that day.

1. What is the largest external organ in the human body?  
a) Eyes              b) Ears              c) Skin              d) Nose
2. Which external organs help us see the world around us?  
a) Ears              b) Eyes              c) Nose              d) Tongue
3. Which external organs help us hear sounds?  
a) Eyes              b) Ears              c) Nose              d) Tongue
4. Which external organs help us smell and taste?  
a) Eyes and ears    b) Nose and tongue    c) Skin and eyes              d) Ears and nose
5. What protected Ria's internal organs when she fell and scraped her knee?  
a) Her eyes              b) Her ears              c) Her skin              d) Her nose

### Q5. Draw any two internal and external organs and label them.

## SUBJECT – COMPUTER

### Q.1- Fill in the blanks-

The main screen of Windows is called the \_\_\_\_\_.
